WWW.Q-RAILING.COM

WELCOME TO THE PREMIUM BRAND IN RAILING SYSTEMS

We will not rest until we have achieved the perfection you expect.

PREMIUM IN EVERY WAY

Nothing but the best

- Highest quality
- High-grade materials
- Flawless surface finishes
- Highly accurate dimensions and minimal tolerances

Unbelievably quick

- Extensive worldwide stock at branch and at Head Office
- Rapid delivery
- Detailed and personal technical advice

Options for every situation

- Huge range of products
- Countless different design styles
- Everything you need to create a complete railing or handrail
- Mix and match to achieve a custom design

100% safe

- Thorough internal testing procedures
- Extensive testing carried out by certified independent testing institutions and leading authorities
- Testing procedures and official approvals that comply with the main international building codes and standards

Beauty and brains

- Many innovations and product improvements every year
- Visual designs to suit every taste
- Features that make for quick and easy mounting

Online resources : www.q-railing.com

- Assembly videos, BIM objects, CAD drawings and other technical specifications
- Q-PAC (Professional Anchor Calculation) software that lets you easily identify the correct Q-railing anchor
- Catalogues, brochures, reference projects and more

Easy Glass® Smart+

Looking for a solution that lets you quickly mount glass up to 21.52 mm thick, and which also gives you the ability to align each glass panel individually? Easy Glass® Smart+ is the answer! This new base channel incorporates the adjustable Q-disc® System for simple glass alignment.

📖 52

NEW 2023

Easy Glass® Strong

An ultra-strong base channel with maximum adjustability thanks to our innovative Q-disc® System – that is what you get with the new Easy Glass® Strong glass railing system. The combination of strength and ease of use makes it ideal for stadiums, airports, shopping malls and other public locations.

📖 84

Juliet balcony options

Check out the recent additions to Easy Glass® View. New predrilled wall profiles and middle posts let you quickly and easily install even wider Juliet balconies. And our range includes more Juliet balcony solutions than you might think: you can also use glass clamps, glass adapters, chest rails or the Easy Alu system to create stylish, robust fall protection for floor-to-ceiling windows.

📖 192

BLACK LINE

The Black Line range of black hardware offers everything you need for a complete baluster railing system or glass balustrade in chic black.

Handrail brackets

Discover our extended range of new handrail brackets for Q-line and Square Line®.

LED strips and connectors for **Linear Light**

Explore our expanded Q-lights Linear Light range, which includes new LED strips, connectors and transformers. Because there are more LEDs per meter, a railing with Linear Light installed can completely change the ambience of a space as well as making it much safer for users. It is also very easy to add Linear Light to your chosen Q-railing balustrade.

📄 242

Multicoloured LED strips

Need a splash of colour? Add beautiful and colourful ambient lighting to handrails, balustrades, walkways and stairs with our multicoloured strips. Available on request.

Digital catalogue

Do you want a digital version of the catalogue? You can see the catalogue online or simply download the PDF file on www.q-railing.com.

Need support or advice?

Q-railing values personal customer guidance and we are happy to assist you! Send an email or call with your questions, to request a quote or place an order, we're here for you.

OUR MATERIALS, COLOURS AND SURFACES

304

316

Stainless steel

Strong and beautiful to look at, stainless steel is one of the most popular materials for railing systems. It comes in various grades, each with a slightly different composition. On its own, steel would naturally corrode, but different elements can be added to make it stainless. The industry standard for interior use is a 304-grade stainless steel. But 316 stainless steel contains 2% molybdenum, which makes the material more resistant to cracking, pitting and harm caused by tension. So, we normally recommend 316-grade stainless steel for outdoor use.

Plastic

The thermoplastic material that we use has excellent chemical and stress resistance. Furthermore, it can be produced in any RAL colour to complement your railing system. The material offers a good balance of resistance to impact, heat, chemical effects and abrasion. It also provides dimensional stability, tensile strength, surface hardness, rigidity and good electrical characteristics.

Aluminium

Lightweight yet strong, aluminium has a naturally-occurring oxide layer that helps provide corrosion resistance. But, for greater protection, the layer must be augmented. Most of the aluminium products in this catalogue are made from metal that has undergone this 'anodisation' process. Otherwise, the material is described as 'mill-finished' aluminium.

Zamak

Robust and inexpensive, die-cast zamak can be a highly economical alternative to other metals. To give the material an attractive finish, you can add a varnish or coating. In fact, many of Q-railing's zamak products are coated in advance, for your convenience.

Steel

Steel comes in different alloys, each appropriate for different purposes. Its strength and fracture resistance depend on the precise mix of iron, carbon and additional elements used. It can also enhance the look of your project, for example if it is powder coated to match the desired colour scheme.

The available colours and their different surfaces are mentioned below. The last two numbers of most article numbers refer to the colour and/or surface.

 00 Raw	 00 Mill finish	 00 Raw	 08 Matt silver effect, anodised	 10 Mirror polished	 12 Satin
 17 Chrome plated	 18 Brushed, anodised	 19 INDOOR Stainless steel effect	 20 Stainless steel effect	 21 Stainless steel effect	 30 E-coated*
 33 RAL 7016 Anthracite grey, matt, plain	 36 RAL 9006 White aluminium satin, plain	 80 RAL 9005 Black, satin, textured	<p>Available for</p> <ul style="list-style-type: none"> Stainless steel Aluminium Zamak Steel Plastic 		<p>*An e-coating, also called electro-phoretic primer, is a thin layer of 15 µ which provides a protection layer (primer coat) to steel products. After e-coating, a product is prepared for the final surface treatment, which can be lacquering or powder coating.</p>

Powdercoated

 32 RAL 9016 INDOOR White, satin, plain	 33 RAL 7016 Anthracite grey, matt, textured	 34 RAL 7047 Telegrey 4, satin, plain	 82 RAL 9005 Black, matt, textured	 85 RAL 9005 80-120 µm Black, matt, textured	 89 RAL 9005 INDOOR Black, matt, plain

All mill finish/raw products, ending with number -00, can be powdercoated in all available RAL-colours.

BACK IN BLACK

AVAILABLE IN DIFFERENT SURFACES

Black Line is a comprehensive range of RAL 9005 black components. It provides you with a solution for just about any balustrade project. Glass clamps, glass adapters, base channels for glass balustrades, baluster posts and handrails are all available in the Black Line range. Created from the highest quality materials and finished to perfection, each item is designed for ease of assembly.

Cleaning and maintenance

Stainless steel is extremely corrosion and scratch resistant due to its composition, but it will always need maintenance, particularly in challenging conditions. Mechanical and/or chemical effects can also impair or destroy the passive layer during installation. We recommend treating the entire surface with Q-ultra-clean after installation to help ensure a strong passive layer, durable protection and long-lasting good looks.

Usage	
Q-protector	Stainless steel + aluminium
Q-ultra-clean	Stainless steel
Q-cleaner	Stainless steel (+ aluminium)

Q-protector

Apply this long-term-protection spray directly after your stainless steel or aluminium balustrade installation. It cleans dust and other deposits from the balustrade while at the same time protecting it from fingerprints, moisture and weather influences by creating a protective layer on the material. And the best thing: there is no need to wait and rinse with water. Q-protector ensures a longer lifetime for your stainless steel or aluminium balustrade and minimises cleaning intervals.

Q-ultra-clean

This cleaning spray is specially designed for stainless steel components. It should be used after assembly, preventively or when corrosion occurs, as it removes persistent dirt and surface corrosion. It also renews and strengthens the protective/passive layer of stainless steel.

Q-cleaner

Q-cleaner has a de-oiling effect and removes stains, fingerprints and permanent markers. It is ideal for the use during assembly and as a regular cleaner for the maintenance of the railing.

Other materials used in our products – steel and zamak – can be cleaned with warm soapy water.

Application of materials

Environmental influences	Applications	Zamak	Aluminium (brushed, anodised)	Aluminium (mill finish)	Aluminium (powder coated)	Stainless steel	Stainless steel

PREFIX MAKES LIFE EASIER

Preparation is the key to success. So, why not make use of our time-saving and cost-saving prefix service when you purchase your next railing solution from Q-railing? You will receive everything 100% ready for installation.

PREFIX Prefix options available.

Bending
We can carry out 2D or 3D bending to order on tubular components, cap rails, U-profiles, edge protection top rails and even Easy Glass® base channels. This meticulous service will ensure that you get exactly the sizes and deflections you need.

Cutting and milling
For maximum convenience, ask us to pre-cut stainless steel, aluminium or wooden products. Handrails, cap rails, balusters and Easy Glass® base channels are all covered. Your purchases could arrive with mitre cuts already done, or with holes pre-milled to accommodate LED spotlights, for example.

Drilling and tapping
Try our drilling and tapping service just once, and you will insist on using it every time you purchase balusters or handrails from Q-railing. Working to your exact specifications, we will create all the holes and threads you require for installation.

Welding
On very rare occasions, Q-railing's standard products require welding in order to fit a particular situation. But that doesn't have to be a problem. Let us pre-weld your custom-made products and deliver them to you ready for installation.

Powder coating
Conveniently add powder coating when you order base channels, cap rails, end caps or any other components you want to customise with colour. Choose any RAL colour you like.

Pre-assembly
To receive Q-railing products pre-assembled in accordance with your needs, simply order our prefix service. Imagine how much time it would save if, for example, your glass clamps or crossbar holders were pre-installed before delivery.

To place an order for prefix services, simply contact us . Our consultants will be happy to assist you.

EASY GLASS® SMART

red dot winner 2020
innovative product

Unbeatable ease of installation

Easy Glass® Smart works with the revolutionary Q-disc® System. The combination of the inlay and the all-important Q-disc enables extremely fast glass installation. Mount the base channel, position the glass and then – with just one simple hand movement – securely fix each panel in place. With the adjustable version of the Q-disc System, you can even vertically align each individual glass panel. An extra feature is the Easy Glass trim, which enables a seamless connection with the floor. It's a stylish finish that also provides the railing with greater material protection.

Internationally tested/calculated/certified:

- 1 With the adjustable Q-disc System, you can align individual glass panels by up to 0,6° from the vertical.
- 2 The Q-disc gives you direct feedback in the form of confirming 'clicks' when installed correctly.
- 3 Suitable for glass thicknesses of 12 - 21,52 mm.

EASY GLASS® SMART VARIANTS

Smart Top mount

- Also for in-floor mounting

Smart F Top mount

EASY GLASS[®] SMART+

red dot winner 2020
innovative product

Mount 16,76 - 21,52 mm glass quickly and easily

Looking for a solution that lets you quickly mount laminated glass of 16,76 - 21,52 mm thickness and also gives you the ability to align each glass panel individually? Easy Glass® Smart+ is the answer. As with Easy Glass® Smart, you just have to mount the base channel, position the glass and – with just one hand movement – securely align each panel and fix it in place.

Internationally tested/calculated/certified:

- 1 With the adjustable Q-disc System, you can realign individual glass panels by up to 0,6° from the vertical.
- 2 Q-disc gives you clear feedback in the form of 'clicks' that confirm correct installation.
- 3 Suitable for laminated glass with a thickness of 16,76 - 21,52 mm.

EASY GLASS® SMART+ VARIANTS

Smart+ Top mount

- Also for in-floor mounting

Smart+ Fascia mount

- Also for mounting on the inner side of parapet walls
- Base channel cladding available

COMING SOON

F and Y base channels

Smart+ F Top mount

- For unfinished floors
- Can be installed at or beyond the edge of a surface

EASY GLASS® SMART+ **HIGH F + Y** BASE CHANNELS

COMING SOON

EASY GLASS® SMART+ **HIGH Y**

Fascia mount

- For high floor build-ups of up to 180 mm
- No substructure needed for higher floor build-ups
- Adjustable height; 160 – 180 mm floor build-up
- Cladding on entire height of profile, which provides a clean view.
- Compatible with trims and accessories from our Easy Glass Smart+ range
- Especially suitable for stairs, no extension by flat steel and the like necessary.

EASY GLASS® SMART+ **HIGH F**

Top mount

- For high floor constructions up to 180 mm
- No substructure needed for higher floor build-ups
- For interior- and exterior use
- Clean elevation surface, standard cladding can be installed later.
- Compatible with trims and accessories from our Easy Glass Smart+ range

Designed for: Light to heavy use
Use: Indoor and outdoor
Variants: Top and fascia mount
Applications: Balconies, galleries, walkways, dividers, stairs and Juliet balconies
Material: Aluminium (mill finish, brushed anodised and powder coated in RAL 9005 black)
Glass thickness: 16,76 to 25,52 mm

Find all information about Easy Glass Prime online:

<https://q-ne.ws/Prime23>

EASY GLASS[®] PRIME

red dot winner 2020
innovative product

Turbo boost your projects

When you are looking for a glass balustrade system that can work with even thicker glass and you want to be able to align the glass panels, Easy Glass® Prime is just the thing. The base channels include the adjustable Q-disc® System, which allows you to align and secure the glass with simple sliding and turning movements.

Internationally tested/calculated/certified:

- 1 Align individual glass panels by up to 1,2° from the vertical.
- 2 The adjustable Q-disc gives you direct feedback in the form of indication points and confirming 'clicks' when installed correctly.
- 3 Suitable for glass thicknesses of 16,76 - 25,52 mm.

EASY GLASS® PRIME VARIANTS

EASY GLASS[®] STRONG

reddot winner 2020
innovative product

An easily assembled powerhouse

Whether it is heavy line loads or a high wind load, Easy Glass Strong, in combination with our revolutionary Q-disc® System, will withstand challenging conditions. The system's combination of strength and practicality makes it ideal for stadiums, airports, shopping malls and other public locations. Thanks to the innovative Q-disc® System, this glass balustrade solution is now even easier to assemble. Mount the base channel, position the glass and – with just one hand movement – securely fix each panel in place. The adjustable version of the Q-disc System allows you to vertically align each glass panel individually. Of course, there are also many compatible products for finishing your glass balustrade.

Internationally tested/calculated/certified:

- 1 With the adjustable Q-disc System, you can realign individual glass panels by up to 0.3° from the vertical.
- 2 Q-disc gives you clear feedback in the form of 'clicks' that confirm correct installation.
- 3 Suitable for three-layer glass with PVB foil (glass thicknesses up to 33.04 mm).

EASY GLASS® STRONG VARIANTS

Strong Top mount

- Also for in-floor mounting

Strong Fascia mount

- Also for mounting on the inner side of parapet walls
- Base channel cladding available

COMING SOON

F and Y base channels

Strong F Top mount

- For unfinished floors
- Can be installed at or beyond the edge of a surface

Strong Y Fascia mount

- For unfinished floors
- Can be installed at or beyond the edge of a surface

EASY GLASS[®] SLIM

High transparency, high reputation

Easy Glass® Slim is a classic within our glass railing range. Whether your project setting is a home, an office or a public area, this glass railing system is a cost-effective solution. Its minimalist design includes a slender base channel that makes for an elegant appearance and helps to keep the weight of the railing low.

Internationally tested/calculated/certified:

- 1 Slim's base channel is just 45 mm wide, making it a cost-effective solution that creates an elegant impression.
- 2 The base channel is light and easy to handle – ideal for manoeuvring on site.

EASY GLASS® SLIM VARIANTS

Slim Top mount

- Also for in-floor mounting

▣ 99, 100

Slim F Top mount

- For unfinished floors
- Can also be installed at the edge of a surface

▣ 102

Slim Fascia mount

- Optional base channel cladding

▣ 103, 104

Glass thickness: 12 to 21,52 mm

Find all information about Easy Glass Pro online:

<https://q-ne.ws/Pro23>

EASY GLASS® PRO

Carry out all the work from inside the railing

Installing the Easy Glass® Pro base channel is easy. In addition, the unique Safety Wedge System of rubbers and adjustable wedges makes for hassle-free glass alignment, as it lets you adjust each glass panel independently by up to 10 mm from the vertical. And with four base-shoe variants, you can be certain of finding a pro solution that suits your construction requirements.

Internationally tested/calculated/certified:

- 1 Choose from a selection of 4 different base channels. There is one to suit any type of project. Pro copes with even the most challenging construction situations.
- 2 Each individual glass panel is adjustable by up to 10 mm (1°) in any direction – a job that can be done from inside the balustrade.

EASY GLASS® PRO VARIANTS

Pro Top mount

- Also for in-floor mounting

Pro F Top mount

- For unfinished floors
- Can be installed at or beyond the edge of a surface

Pro Fascia mount

- Can be installed at or beyond the edge of a surface

EASY GLASS[®] MAX

Exceptionally strong and safe

This elegant strongman can cope with extremely heavy loads and high wind speeds. Its combination of qualities makes Max the perfect choice for high-demand public areas such as stadiums, airports and shopping malls.

Internationally tested/calculated/certified:

- 1 The perfect choice for high-demand public areas such as stadiums.
- 2 Goes directly onto concrete without the need for a steel structure.

EASY GLASS[®] UP

Clear views from any area enclosed by parapet walls

Easy Glass® Up is the ultimate solution for any area enclosed by parapet walls. Its ultra-slender base channels – either top or fascia mount – make for unobstructed views, and you can use the system to create a balcony railing with glass infills up to 700 mm high. If you want to make the most of a roof terrace, it is hard to beat.

Internationally tested/calculated/certified:

- 1 With a top mount base channel just 80 mm high, Up provides expansive views from any balcony or roof terrace with parapet walls.
- 2 You can conveniently mount it from the inner side.

EASY GLASS® UP VARIANTS

Up Top mount

- For parapet walls
- Also for embedding in a floor

134

Up Fascia mount

- For parapet walls (inverse mount)
- Optional base channel cladding

EASY GLASS® HYBRID

The clear wall-mounted balcony railing

If you are looking to install a balustrade between two walls, for example on a non-projecting balcony, Easy Glass® Hybrid is ideal. With a minimalist base channel and strong wall connections on both sides, this system creates a transparent yet robust structure for large spanning widths.

Internationally tested/calculated/certified:

- 1 Hybrid is the perfect between-walls solution for balconies – the most minimalistic glass railing for mounting between two balcony walls.
- 2 Create uninterrupted glass spans of up to 3200 mm.
- 3 Hybrid includes beautifully matching designs for its top and bottom profiles.

EASY GLASS[®] AIR

Make a difference

Easy Glass® Air lets you give any home or commercial building an architectural wow factor! The glass balustrade features a state-of-the-art base glass clamp characterised by signature elements. The light and airy design of the glass-bead-blasted clamps and connectors creates the illusion that the glass panels are floating. The result is pure elegance and maximum transparency.

Internationally tested/calculated/certified:

- 1 Air beautifully coordinates the design of its base clamp and glass connector, making it unique in the market.
- 2 The system provides an end solution for half clamps, including end caps.

CHEST RAILS

222

VERSATILE AND ALMOST INVISIBLE

Floor-to-ceiling windows are extremely popular in both residential and office buildings, as residents and users benefit from maximized daylight intake. However, a Juliet balcony solutions on the windows is necessary for a sufficient fall protection.

In our range you will find two systems that have been specially developed for this application: Easy Glass® View, which can be mounted on the facade, in the reveal or on the window frame, and Easy Glass® MOD 6507-6508 with its round or angular wall flanges and cap rails.

But there are also other solutions for creating glazed Juliet balconies - for example with the Q-railing glass clamps and glass adapters. For protection at larger windows, you can also opt for the new sleek chest rails - choose from various round or square elements.

EASY GLASS®
VIEW

194

Q-railing

Designed for: Light and medium use
Use: Indoor and outdoor
Variants: Wall mount
(facade, window, reveal)
Applications: Juliet balconies
Material: Aluminium (mill finish, brushed
anodised and powder coated)
Glass thickness: 12 to 21,52 mm

Find all information about
Easy Glass View online:

[https://q-ne.ws/
View23](https://q-ne.ws/View23)

EASY GLASS[®] VIEW

Minimalistic Juliet balconies for maximum safety

You can mount the almost invisible Easy Glass® View Juliet balcony either on the facade, in the window reveal or directly on the window frame. The slim aluminium profiles can also be powder-coated to match the colour of the windows or facade.

Internationally tested/calculated/certified:

- 1 Create a virtually invisible Juliet balcony with Easy Glass View thanks to the extremely slender profiles and concealed assembly points.
- 2 Choose from a variety of assembly options, including facade mounting, between reveals and onto a window frame.

EASY GLASS® VIEW VARIANTS

- Mounted with anchors or screws (depending on substrate)
- Mounting between reveals can be carried out from inside
- Profiles and end caps can be powder coated

Q-INFO MOD 6842-01

Designed for: Light and medium use
Use: Indoor and outdoor
Variants: Wall mount (facade)
Applications: Juliet balconies
Material: Aluminium (mill finish and brushed anodised), stainless steel 316 (satin-finished)
Glass thickness: 8 to 21,52 mm

Find all information about
Easy Glass MOD 6507-6508
online:

<https://q-ne.ws/6507-6508-23>

EASY GLASS® MOD 6507-6508

Elegant Juliet balconies with numerous possibilities

The Juliet balconies Easy Glass® MOD 6507-6508 create a minimalistic, yet safe fall protection at floor-to-ceiling windows. The glass infill is easily mounted to the facade using the wall flanges and cap rails. Choose from round or rectangular balustrade components.

Internationally tested/calculated/certified:

- 1 Mount the cap rails either horizontally or vertically to the facade.
- 2 Easy Glass MOD 6507-6508 is a stylish addition to any facade.

EASY GLASS® MOD 6507-6508 VARIANTS

- Wall mounted with chemical anchors
- Both horizontal or vertical mounting

EASY ALU WITH PICKET RAIL

Easy Alu picket rails are designed to suit a wide range of new-build and renovation projects. They come in a choice of powder-coated RAL colours, so you can be sure of matching them to your client's colour scheme. This Juliet balcony option is available on request.

3

Q-LIGHTS SYSTEMS

Q-lights Spotlight ————— 240 - 241, 264 - 266, 269
Q-lights Linear Light ————— 242 - 269

Designed for: Light to heavy use (IK10 vandal-proof)
Use: Indoor and outdoor (IP00 - IP66)
Variants: 24V and 48V warm, neutral and cool white light, RGB on request (Linear Light) and 3000 / 5000K, 12 V (Spotlight)
Applications: Glass balustrades, baluster railings and wall railings
Material: Aluminium, stainless steel 304 and 316

Find all information about Spotlight online:

<https://q-ne.ws/Spotlight23>

Find all information about Linear Light online:

<https://q-ne.ws/LinearLight23>

Q-LIGHTS SYSTEMS

Q-lights Spotlight

Q-lights Linear Light

Transform railings and increase safety

When you add well-designed illumination to a railing, you not only change the ambience of a space, you also make it safer for the users. Q-lights Spotlight and Q-lights Linear Light put an exciting palette of light effects at your disposal. Both LED systems can be easily added to your chosen Q-railing balustrade.

Internationally tested/calculated/certified:

- 1 The LED strips enable extremely clean, high-density light lines.
- 2 LED strips up to 30 m long.
- 3 Enhance safety by adding light to your balustrades. Q-lights makes balustrades and walkways stand out even more in both interior and exterior settings.

Q-LIGHTS VARIANTS

Spotlight for handrails

- For round stainless steel tubes (Ø 42.4 or 48.3 mm)
- Handrail brackets, handrail adapters and wall flanges with cable duct
- Cool white light (5000K, 12V), warm white light (3000K, 12V)

▣ 240 - 241, 264 - 266, 269

Linear Light for cap rails

- LED strips 5 and 30 metres long
- Position the LED strips in front of or behind the glass
- Transparent or frosted plastic covers
- Warm or cool white light (24V and 48V), RGB strips on request

▣ 242 - 259

Linear Light for handrails

- LED strips 5 and 30 metres long
- Handrail brackets with cable duct
- Special adapters for mounting on handrail brackets
- Transparent or frosted plastic covers
- Warm or cool white light (24V and 48V), RGB strips on request

▣ 242 - 257, 260 - 269

For tube Ø 42,4 x 2,0 mm

Asymmetric light beam
Colour temp. 3000K + 5000K
50.000 hours light

Q-INFO

We recommend to mill the hole. If that is not possible a step drill should be used. Always deburr drill holes and remove drilling remains to avoid cable breakage. Don't start installation of LED Spotlights until all holes have been deburred internally and externally.

Q-INFO

Luminous efficacy on floor/staircase of a 900 mm high handrail

Height (mm) from ffl (finished floor level): 900mm

Distance from wall (mm)		Distance (A) between LED spotlights (mm)					
		400		600		1000	
		IP20	IP66	IP20	IP66	IP20	IP66
0		52 lx	56 lx	35 lx	37 lx	20 lx	22 lx
600		32 lx	35 lx	22 lx	24 lx	13 lx	14 lx

We recommend 600 mm distance between LED spotlights to get the best luminous efficacy.

Any lighting calculations shown should be taken as a guide only, as all site conditions/lighting codes are different. It is strongly recommended that you consult with a lighting consultant or electrical engineer to determine the exact requirements for your project.

Transformer 12V
220...240V~, CE, without plug

LED STRIP INFORMATION

- All strips are prewired once. For additional connections, use a connection cable (■244-246).
- Each strip can be cut with scissors, between the copper dots, to the required length.

- Cut LED strips can be connected using a connector (■244-246).
- All models are suitable for connectors on Linear Light cap rails (■258-259) and Linear Light handrails (■260-269).

SAFETY INFORMATION

- Installation of the mains modules has to be carried out by a qualified electrician according to the applicable local regulations and standards.
- Observe correct electrical polarity. Incorrect polarity can destroy the modules.
- Power supply units used for operation should include the following basic protection and safety features:
 - Short-Circuit Protection
 - Overload Protection
 - Overheat Protection
 - SELV (Safety Extra Low Voltage)
- Pay attention to the maximum output of the power supply.
- Only parallel drive circuits ensure a safe operation.

EASY ALU

Designed for: Light and medium use
Use: Indoor and outdoor
Variants: Top and fascia mount
Applications: Balconies, galleries, walkways, dividers, stairs and Juliet balconies
Material: Aluminium (mill finish, powder coated or brushed anodised)
Glass thickness: 8 to 10,76 mm

Find all information about Easy Alu online:

[https://q-ne.ws/
EasyAlu23](https://q-ne.ws/EasyAlu23)

Fast installation, utmost convenience

Easy Alu offers you all the benefits of a high-grade aluminium railing with Q-railing quality built in. That is in addition to great looks, attractive pricing and impressive customisation options. You can choose to preassemble the components into complete railing sections in your own workshop. Alternatively, speed things up even more by ordering ready-to-install modules custom made to your specifications. Simply anchor them to the floor and you are done!

Internationally tested/calculated/certified:

- 1** Features the Glass Wing rubber: insert the glass quickly and with hardly any pressure – the rubber will hug the glass tightly.
- 2** Choose from 3 ordering options.
- 3** Comes with a levelling block for adjustments.

EASY ALU INFILLS

Glass

- All glass
- Glass with mid-rail(s)

Available on request:

- Picket rail infill
- Metal plate infill

392 - 393

Picket rail infill

Convert your Easy Alu baluster railing system into a Juliet balcony with a picket rail look.
Available on request

Metal plate infill

Give your baluster railing system a modern, solid look by adding metal plate infills.
Available on request

YOUR ORDERING OPTIONS

Option

1 READY TO INSTALL MODULES

WE:

- Do all the necessary cutting and drilling.
- Get you the exact material finish you prefer (brushed anodised, mill finished or powder-coated in any RAL colour).
- Preassemble everything.
- Send you modules completed to your exact specifications.

YOU:

- Position the modules on site.
- Anchor the modules to the floor.
- Click the handrail on top.

Option

2 PREFABRICATED SINGLE COMPONENTS

WE:

- Do all the necessary cutting and drilling.
- If required, do any powder-coating.
- Send you the components per your exact specifications.

YOU:

- Preassemble modules from the components.
- Position the modules on site and anchor them to the floor.
- Click the handrail on top.

Option

3 STANDARD SINGLE COMPONENTS

WE:

- Send you the standard components.

YOU:

- Do the cutting, drilling and – if you wish – powder-coating.
- Preassemble modules from the components.
- Position the modules on site and anchor them to the floor.
- Click the handrail on top.

<https://q-ne.ws/SquareLine44-23>

SQUARE LINE® 40x40

For a pared-down, contemporary look

Square Line® 40x40 proves that great design doesn't have to be complicated. Its simple lines and stainless finish bring a smart, unfussy look to railings and stair-rails. Square Line is highly modular, so you can combine it with parts from other Q-railing baluster railing systems such as round handrails.

Internationally tested/calculated/certified:

- 1 This system provides a wide selection of infills, including glass, bars, web and cable.
- 2 Choose from different LED options for handrails.
- 3 Creates a contemporary look thanks to its industrial design.

SQUARE LINE® 40x40 INFILLS

Glass

- Glass frame tube
- Glass clamps
- Glass adapters
- Glass holders

Designed for: Light to heavy use
Use: Indoor and outdoor
Variants: Top, in-floor and fascia mount
Applications: Balconies, galleries, walkways, dividers, stairs and Juliet balconies
Material: Stainless steel 316 (satin or powder coated RAL 9005 black)

Find all information about Square Line® 60x30 online:

<https://q-ne.ws/SquareLine63-23>

SQUARE LINE® 60x30

A simple design that delivers on strength

Square Line® 60x30 has an uncompromising look – ideal for when you want to make a bold statement. The system's stainless balusters and handrail assert themselves with simple geometric forms and are suitable for settings with a high-safety demand.

Internationally tested/calculated/certified:

- 1 The extra-strong post makes Square Line® 60x30 ideal when you need a more robust balustrade.
- 2 Creates a contemporary look thanks to its industrial design.

Q-LINE

A system that provides endless options

Q-line is, without doubt, our most versatile system. It comes with a mass of different components that can deal with most architectural challenges, and just about any special requirement. You can even create a railing with a totally polished finish. Or how about bringing in some parts from other systems to create a totally unique design? Let your imagination run wild.

Internationally tested/calculated/certified:

- 1 The Q-line range is extremely versatile, with various surface and infill options, top and fascia mounting and even stair solutions.
- 2 Q-line also provides a double-walled post (top and fascia), which lets you create a round-posted balustrade that can resist higher line loads.

Q-INFO

Save time and money with Q-tube

Q-tube has a far tighter tolerance than a standard commercial tube. Even the welding seam of Q-tube has been specially adapted to our fittings. Therefore the tube fits perfectly in conjunction with our fittings, in order for you to be able to work fast and effectively. To prevent damage, and to guarantee the quality, each tube section is separately packaged.

d line
HANDRAIL SYSTEM

Danish design by *Knud Holscher.*

"The attitude of expressive and minimalist design in stainless steel is carried through completely in the d line handrail system. It is a product group that is beautiful and functional in use and also easy to install, modify or repair. The d line handrail system can be adapted to the most challenging architecture without compromising the aesthetics."

Q-GLASS (Toughened safety glass)

MOD 5009

Safety glass		Laminated	
OUTDOOR	H	W	T
195009-070-08	800	700	8,76
195009-080-08	800	800	8,76
195009-090-08	800	900	8,76
195009-095-08	800	950	8,76
195009-100-08	800	1000	8,76
195009-150-08	800	1500	8,76

Q-glass is directly available from stock.

Q-INFO

Calculation

$$H (m) \times W (m) \times 2,5 \times 8 = \text{kg}$$

Example

H	W	Tg
0,8 m	1,0 m	8 mm
$0,8 \times 1,0 \times 2,5 \times 8 = 16,00 \text{ kg}$		

Q-INFO

Laminated safety glass

-  Smooth edges
-  Rounded corners
-  Arrised edges
-  Polished edges

HINGES AND DOOR LOCKS

454 - 455

CRYSTAL CLEAR, ABSOLUTELY SAFE

Although you may think of glass as a fragile material, it is actually extremely strong. This makes it an excellent choice for a railing infill. And when you combine it with Q-railing's highly robust glass infill holders, you have a practically indestructible railing. We know because we have tried! At our in-house testing facility, we continually subject our products to rigorous tests. In addition, extensive testing is carried out by certified independent testing institutions and leading authorities.

As a result, you can expect our glass clamps – tested in accordance with the EN-12600 international standards – to resist dynamic loads of up to 50 kg. This is true, whether you choose to combine them with toughened, laminated glass or monolithic glass (6 - 21,52 mm). Both options comply with international DIN- and BS-standards, and are AbZ approved.

CERTIFICATION

Our glass clamps have been tested according to the DIN/EN 12600 testing method, resulting in the German AbZ approval.

SAFETY

Fascia mount? Safety first!

Use security pins or security plates.

FIND THE RIGHT ANCHOR FOR YOUR PROJECT

Please check your local standards on anchors.

This listing is not precalculated/tested and is advisory only, based on Q-railings program. Other anchors/options are not excluded. Our extra tools (including Q-pac, anchor tool and tables) guide you in selecting the right anchor for your project. In case of doubt contact your sales consultant.

Find all information about Q-pac online:

Stainless steel should be cut with an appropriate saw for efficient work and ideal results. To guarantee this, stainless steel saws have an ultra-strong but slowly rotating motor. The saw's minimal weight makes it the professional 'must have' tool on site.

201070-23
Q-34

Stainless steel saw

Motor 0,5 kW - 230 V, 60 rpm, automatic cooler, 17 kg, sizes 490x425x600 (W x L x H), saw blade not included, for straight cuts
